PROFESSIONAL EXPERIENCE

Flexium Interconnect Inc., Taiwan

November 2022 – March 2024

Product Quality Management Engineer

- Developed and implemented an internal data verification system, increasing data processing capacity by 150%.
- Ensured 100% shipping accuracy by streamlining quality inspection protocols and cross-functional verification workflows.
- Accelerated the annual quality audit score by 69.77% through rigorous documentation analysis and internal audits, ensuring alignment with customer specifications and regulatory requirements.

MEKTEC Manufacturing Co. (Taiwan), Ltd., Taiwan

May 2020 – September 2022

Quality Assurance Engineer

- Engineered the integration of customer feedback platforms to enhance product development and improve customer satisfaction scores by 15%.
- Spearheaded root cause analysis for key accounts using six sigma and 8D methodology, significantly enhancing process yields and reducing production waste.
- Validated quality control documentation, including inspection checklists and SOPs, to meet regulatory requirements and client specifications, ensuring zero product recalls.
- Collaborated with suppliers to investigate incoming material quality issues, leading joint review meetings to identify root causes and implement corrective actions.

Y.Y Cable Accessories., Taiwan

July 2019 – March 2020

Overseas Sales Assistant

- Negotiated pricing, specifications and delivery terms while coordinating order fulfillment and cross-functional activities, achieving 30%+ quarterly sales growth in new markets.
- Tracked orders and analyzed purchase patterns in ERP system to forecast order timing and proactively address delivery delays.
- Supported RFQs and technical specifications by interpreting technical drawings and coordinating requirements between customers and internal engineering teams.

ORGANIZATION EXPERIENCE

Taipei Innovative Textile Application Show (TITAS), Taiwan, Volunteer

October 2018

- Facilitated international procurement by providing real-time trilingual translation (Korean, Mandarin, English) for South Korean exhibitors and global stakeholders.
- Bridged the gap between complex technical specifications and commercial requirements, ensuring alignment that directly accelerated cross-border contract negotiations and closures.
- Managed onsite booth logistics and visitor flow, proactively addressing inquiries to enhance the exhibitor's brand presence and networking efficiency.
