SUMMARY

Experienced **Quality Engineer** with 4 years in electronics manufacturing (FPC/PCB), driving QMS compliance, data verification and RCA with CAPA, including SCAR, to achieve **100%** shipping accuracy and a **150%** increase in data processing capacity. Supported customers including **Apple, Google, Meta, Bosch** and **iRhythm** at Flexium and MEKTEC. **MS in Supply Chain Management** (Dec 2027). Proficient in Power BI, Tableau, SAP, 8D/CAPA, Minitab, and Six Sigma.

TECHNICAL

System & Analytics: SAP, Power BI, Tableau, Minitab, CRM, MS Office
Quality Methods: QMS, 8D/CAPA, SCAR, RCA, Six Sigma, Internal Audit, SOPs

PROFESSIONAL EXPERIENCE

Flexium Interconnect Inc., *Product Quality Management Engineer* November 2022 – March 2024

- Developed and implemented an internal **data verification system**, increasing data processing capacity by **150%.**
- Ensured **100% shipping accuracy** by streamlining quality inspection workflows with **cross-functional** teams and customers.
- Improved annual **customer quality audit** score by **69.77%** through **internal audits** and documentation reviews aligned with customer specifications and regulatory requirements.

MEKTEC Manufacturing Co., *Quality Assurance Engineer* May 2020 – September 2022

- Led **RCA** and **CAPA** for key accounts using **Minitab** and **Six Sigma**, improving process yield and reducing scrap.
- Investigated **incoming material** issues with **suppliers and subcontractors**, issuing **SCARs**, leading joint reviews to identify root causes and verifying **corrective actions** to closure.
- Validated SOPs and inspection checklists to meet customer and regulatory requirements, achieving zero product recalls.
- Served as **quality liaison** between the Korean sales team and internal teams on defect issues, providing progress updates and interpreting (**Korean-Mandarin**) in customer meetings as needed.

Y.Y Cable Accessories, *Overseas Sales Assistant* July 2019 – March 2020

- Managed accounts across the Americas, Asia, and Oceania (incl. Spanish-speaking customers), negotiating pricing, specifications and delivery terms, and achieving **30%+ quarterly sales growth** in new markets.
- Tracked orders and analyzed purchase patterns in **ERP** system to **forecast order timing** and proactively address delivery delays.
- Supported **RFQs** and technical specifications by interpreting **technical drawings** and coordinating requirements between customers and internal engineering teams.

ADDITIONAL EXPERIENCE

AuPairCare, Indiana & California, *Au Pair* April 2024 – October 2025

- Coordinated daily schedules and transportation for three children, ensuring on-time pickups and drop-offs across school and activities.
- Scheduled backup babysitters to maintain full childcare coverage during host family's work and travel.
- Scheduled **vendors** for annual home maintenance and tracked **preventive maintenance** for water filters, water softener salt, and HVAC filters using maintenance tracking system.
- Managed household supply replenishment and organized pantry inventory using **FIFO** rotation to reduce waste and prevent stockouts.

EDUCATION

University of Texas at Dallas *Master of Science in Supply Chain Management* December 2027
Wenzao Ursuline University of Languages *Bachelor of Arts in Spanish* January 2020
